

ATTENTION

4D Motion EFX Theatre Advisory

This unique motion and special effects in the MediaMation 4D Motion EFX Theatre experience immerses you into the on-screen action like never before. Please be aware of the following regarding the motion and effects experience you are about to enjoy:

- You must be at least 40" tall and able to sit and support yourself on your own to use the seats in this theater.
- Your seat will move throughout the movie in response to the action on the screen.
- Your seat may tilt forward and backwards, up and down, and side to side.
- Your seat includes neck and leg ticklers, back and seat poppers, and seat rumbling which may activate during the movie.
- Other effects that you may experience during the movie include: water mist, fog, wind, air blast, and different scents.
- Strobe lighting may also occur during the on-screen action.
- The seats in this theater may be harmful to persons who may be or are pregnant; persons with heart conditions; elderly persons and persons with back, head, neck, or leg conditions or injuries or other physical limitations; persons with difficulty with balance, standing, or walking; and persons with scent or fragrance allergies or reactions to fog effects.
- No lap seating is allowed. Only 1 person per seat please.
- Please remain seated with your feet on top of the footrest for the entire movie as a courtesy to others.
- If you have to leave your seat or the theater during the movie, please exercise caution and care as the seat may be moving when you get out of or return to your seat.

If you are unable or unwilling to enjoy this 4D Motion EFX Theatre experience or if you have any questions or concerns about this experience, please contact theater management staff before the movie and experience begins.
